

Transform yourself

WHERE MEMORY BECOMES FRAGRANCE

Anuja Raja formulating in her laboratory.

It all begins in Sri Lanka.*

As a child, Anuja Raja grows up surrounded by abundant nature, immersed in flowers, plants, and exotic scents. She discovers, from an early age, the secret language of the botanical world: a flower picked at dawn, a leaf crushed between her fingers, a spice carried on the warm air. Years later, Paris opens the doors to the world of French perfumery.

From this encounter between Ceylon and Paris, between intimate memory and contemporary creation, ANUJA PARIS is born.

Each fragrance is a journey.

A composition where whole, authentic, living botanical essences reveal the richness of a landscape and the emotion of a memory.

On the skin, the notes evolve, intertwine, and reveal another facet of oneself.

ÉLIXIR DES CIEUX

PARFUM COSMOS

FRANKINCENSE · ROSE · MYRRHE

*"ÉLIXIR DES CIEUX was born from a story that has always stayed with me : that of the **Three Wise Men**, guided by a star to Bethlehem more than 2,000 years ago. Coming from the East, they brought three precious gifts: gold, frankincense, and myrrh. Through this creation, I wanted to tell this story in my own language, the language of fragrance.*

The gold reveals itself in the ELIXIR's golden glow, like precious light captured within the bottle. Frankincense, luminous and mysterious, rises towards the heavens, evoking the path guided by the star. Myrrh, warm, resinous, and enveloping, recalls the treasures of the East and the depth of ancient ingredients.

ÉLIXIR DES CIEUX is therefore more than a fragrance: it is my personal interpretation of a thousand-year-old story, an invitation to journey between Earth, the East, and the Heavens."

LOTUS BLEU

PARFUM ÉGYPTE

PETITGRAIN BIGARADE · BLUE LOTUS · PATCHOULI

The fragrance LOTUS BLEU was born from an unexpected encounter at the Carrousel du Louvre in Paris, between Anuja and three university professors with a passion for Ancient Egypt. During their conversation, they introduced her to the blue lotus, a flower that once flourished on the waters of the Nile and held profound symbolic significance in ancient Egyptian civilization.

Their research into fragrances discovered on mummies also revealed the importance of botanical ingredients in the rituals of Ancient Egypt, including the use of blue lotus in scented preparations and ointments.

Fascinated by this discovery, Anuja imagined a fragrance inspired by this millennia-old heritage : a perfume in which blue lotus becomes the heart of a floral, sensual, and mysterious elixir, like a precious secret carried from the banks of the Nile.
